Yes, it's 2pm tomorrow. I didn't think Mathy and Nitin wanted to be on this call. Should I just

add them? Right now it's OD and DD level

Has this meeting been scheduled for tomorrow? I am not seeing it on Mathy's or Nitin's calendars. I am putting a placeholder on the calendar for next Tuesday at 3:00 p.m. for the AA/RA level meeting. Thanks.

Thanks for turning this around so quickly Sandy. We'll start looking at the document right away.

Deliberative Process/Ex. 5

The Administrator's office would like to see the plan completed and technical issues resolved as soon as possible. Here's the plan we discussed with Mathy.

Friday 9/11 (Between 12-2pm ET?)

Deliberative Process/Ex. 5

Next Week

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

Please call me if you have any questions or concerns.

Hi Mike, Attached are my edits addressing your comments from yesterday based on the written comments you provided and the phone-call with your group. You can look at the track changes version that will point you to the edits that were made and their location. That version is very difficult to read. Alternatively, you may want to read it without the mark-up showing.

Give me a call if you have questions or want to discuss the changes.

Thanks,

Sandie

Subject: RE: PLEASE USE THIS VERSION -- Providing context for the GKM draft watershed monitoring plan

Tom,

Thanks for the opportunity to review the latest version of the conceptual monitoring plan. We appreciate OW and Region 8's efforts to address our comments and think this document is coming along very nicely.

Attached please find our latest set of comments. We in OSRTI spoke to Sandy Spence this afternoon to discuss our remaining concerns and think there is a very achievable path forward.

We remain available to help finalize this document in a timely fashion.

Subject: RE: PLEASE USE THIS VERSION -- Providing context for the GKM draft watershed monitoring plan

Hi Michael,

Thank you for the comments. A couple of first reactions:

Deliberative Process/Ex. 5

Also I don't think the proposed text below fully captures the intent of the study. What we're

trying to do here is follow through on statements the Administrator has made statements such as:

Deliberative Process/Ex. 5

So I don't think the goal of the study is just to determine monitoring frequencies.

I'm going to be on travel Tuesday and Wednesday, so I will return the pen to Sandie Spence and Bert Garcia of Region 8, who can work with you on these and any other comments you may have after you review this latest draft.

Also hope you have a good weekend. – TomW.

Hi Tom,

Thanks for sharing the latest draft, which OSRTI will review as quickly as possible.

In the meantime, as promised during our call yesterday, we have drafted the following language

for your consideration. We think this could be inserted after the first paragraph in section II to provide additional messaging on the purpose and scope of this monitoring effort.

Again, we will review the latest draft as quickly as possible and get back to you with any comments.

Please let us know if you have any questions or concerns. Thanks and have a great weekend.

Thank you Reggie I will take your thoughts below, also my notes from our call (copied below) and some source materials about conditions in the watershed and craft some context for folks to review, should have that by 2pm today:

Here are my notes from the call:

Deliberative Process/Ex. 5

Deliberative Process/Ex. 5

Thank you, look forward to working OSWER to provide the right watershed context for this watershed monitoring plan.
